

The University of Hertfordshire offers excellence in teaching, learning and research, and puts students at the heart of its activities. It is a model of a 21st Century University, international, business-facing and business-like in approach - making it distinctive in an ever changing higher education environment.

With a student community of over 24,000, including more than 2,000 international students from over 85 different countries, the University has a global network of over 100,000 alumni.

The University has the perfect location, just 25 minutes by train from London in the beautiful Hertfordshire countryside.

The University of Hertfordshire is an ambitious and entrepreneurial University. It offers excellence in teaching, learning and research and puts students at the heart of its activities.

The University of Hertfordshire made a big leap in the latest league table for universities in the UK - the Complete University Guide, published in the Independent newspaper. The Complete University Guide is geared towards helping would-be students to make the right choice of course and university.

Placed 45 out of 113 universities, Hertfordshire has gone up nine places since the previous year. The Independent comments that "Hertfordshire makes a powerful showing – scoring highly in research and facilities to outperform institutions such as Aberdeen and Stirling".

The table reveals that Hertfordshire has invested more in student facilities than any other University in the UK. Much of this investment has gone towards enhancing the student experience through improved social space, new and refurbished laboratories, modern upgrades to lecture rooms and new equipment and studios.

The latest addition to resources for students is The Forum (info@forumhertfordshire.co.uk) – one of the University's most exciting projects to date and which will be ready to welcome new and returning students this September. The £38 million building based in the College Lane Campus in Hatfield will be a focal point for the University of Hertfordshire community and enhance student experience.

The University offers a huge range of courses at both undergraduate and postgraduate level as well as research. Subject areas include Art and Design, Film, Music and Media, Business and Management, Aerospace, Automotive and Design Engineering and Information Sciences, Physics, Astronomy and Mathematics, Humanities, Law and Education, Health and Emergency Professions, Nursing and Midwifery, Pharmacy and Life Sciences.

The University is pleased to announce that for the 2009/10 intake it is offering international students the opportunity to apply for the prestigious merit-based Chancellor's International Scholarship. We have 100 of these available, each worth £2000. In addition international students qualify for a £500 fee reduction if they pay their fees in full at registration.
